"creck" dance house on the Points, for "de yellow rals" It appears that Peter bought a policy number of George, which turned up a twenty shilling "hit" "upon he presenting the same for payment. George rafused o honor the "luck," which resulted in Pete getting to themper, and from words got to blows, when Peter received his "hit" over the occeanut, which laid him in the gutter, almost senselses. However, upon some manconvering with an individual in the "star" thamber, this man was admitted to ball to keep the wace. Why don't the authorities break up these policy helps!

Board of Education—Stated Meeting.

ALL J. JOHNSON, E.S. President, in the Chair.

AP PARSINERY announced that he had received the lift cate under the hand and seal of the County Clerk, of appointment of Stephen Hasbrouck, as Commission the Fourieenth ward, and called upon the Board ake such sction on it as they might deem proper.

everal members asked by what authority or by what pinting power the appointmentiwas made?

RECH resid it was not necessary for this Board to any action on it.

RECH said it was not necessary for this Board to any action on it.

\*\*rator.wr-l differ with gentlemen; I think it is very sarey that we should take action upon it.

\*\*RECH-l move that Doctor Hashrouck be allowed splain. The motion was objected to, and further ceedings on it dropped.

\*\*Rera desultory conversation, Mr. Allen moved that certificate should not be received.

\*\*veral members said the motion and debate was out der—it was not an application for admission—it was ally a certificate of the admission of Doctor Haskets as a School Commissi mer of the Fourteenth 4, and if some tangible motion was not made upon the ordinary business of the Board should be proceed-rith.

marely a certificate of the admission of Doctor Hasbrouck as a School Commissi mer of the Fourteenth ward, and if some tangulse motion was not made upon it, the ordinary business of the Board should be proceeded with.

Mr. Eur contended that some action should be taken—he either was or was not entitled to the seat, and if the paper was pinced on the file without taking some action on it, they would be after wards precluded from contesting the right of Doctor Hasbrouck to take his seat.

Mr. Rucs contended that it would be, to say the least of it, vary discourteous to Doctor Hasbrouck, and a great injustice to the Fourteenth ward, who have been already deprived of their representative by an act of this Board, to dismiss the matters a summarily; if there were any doubts of the authenticity of the document the County Liveth's office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the office was open, and they might examine the files of the open of of the ope

hed, and it was drusted to 5 sent below to hard adjourned.

The Buffalo Express of the 6th inst, says that the hole telegraph into between that city and Albany is pected to be in operation in the course of a lew weeks, as company are driving it forward with all practicable apartch. The delay has arisen from the want of wire, is obtained from two mills only, one in New Jersey, done in Connecticut, and the demand for the numeristimes has been so great that it could not be supplied. The trial of Milton Braman, for the murder of his wife, poisoning came on at the season of the Oyer and eminer, beld at Morrisville, Madison county, last eek. The trial occupied two days, 35 witnesses being samined for the prosecution. The jury, after being at 19 hours, could not agree, and were decharged. The facuer is to be tried again at the September circuit.

The Concordia, (La) Intelligencer says 1000 wagons emigrants have crossed the Missistippi at Vickuburg ithin the last six mon hs, bound West, averaging six traous to a wagon. Adde to his the number that have cossed at Memphis and other intermediate points, as rand Gulf, Rodney, Natches and the mouth of Red liver, and some idea may be formed of the extent of migration to Western Louisiana and Texas.

EMPIRE CLUB.

mate the party again, to heal the divisions in the ranks and to bring back that learnessy which has been nearly destroyed by the tens of the debate on the Oregon question. It will be made a strict party measure, and probably pass without any material alterations. It had been so determined upon in a cannot be the strict of the strict of

imports the first quarter of 1848, compared with the cor-

we notice all through this table a falling off in the imports the first quarter of 1846, compared with the corresponding quarter in 1845.

Our returns show that the aggregate of merchandise imported into this district for the first quarter of this year, was valued at \$2,405,835 more than for the same quarter last year. This shows that the importations have actually been larger this year, so far, than last, notwithstanding the falling off exhibited in the above table.—
The increase has been in articles not enumerated in this table—in articles of foreign manufacture, too numerous to detail. Our importations of the cotton, woollen, linea and silk manufactures of Great Britain and France this season, have been unusually large, and have swelled the aggregate value, compared with last year, to the extent named above. The value of merchandise imported the first quarter of each of the past four years, and the daties each quarter, have been as annexed:—

1845. 1846. 1846. 1845. 1846. 1845. 1846. 1845. 1846. 1845. 1846. 1845. 1846.

years but there is every probability that for the remainder of the year, they will be comparatively limited. Our spring trade this season has not been so extensive as anticipated, and the stocks of goods on hand are there fore unusually large. The importations have been forced upon the market, and are now probably in second hands, that is, in the hands of the jobbers. There has been a great depreciation in prices since the season opened, and the sales now made at auction exhibit prices several per cent below those ruling when they first commenced.

Navigation on the internal improvements of Pennsylvania has commenced. The water was let into the Lehigh canal on Monday last, and the season's business commenced. The Delaware is not yet repaired, but this does not materially affect the coal operations so early in the season as the orders upon the line of the Lehigh canal are more than sufficient to keep the companies busy for a month or more. The Lehigh canal never was in better order for businesy the whole line is in excellent condition. The beak track will be in operation in the course of the present week; the engines at both plane houses been running everal days. The Hazleton Company are ready to commence operations as they get some necessary fatures completed. They have been been running everal days. The Hazleton Company are ready to commence operations as they get some necessary fatures completed. They have been been running everal days. The Hazleton Company are ready to commence operations as they get some necessary fatures completed. They have been been running everal days. The Hazleton Company are ready to commence operations as they get some necessary fatures completed. They have been running everal days. The Hazleton Company will be ready as soon as the Beaver Meadow Railroad is repaired. This which injured some of the bridges over Qualake.

The Buck Mountain Company will be ready as soon as they get some necessary fatures completed. They are improving in this respect.

We have frequently allused to the i

improving in this respect.

We have frequently alluded to the increasing trade between the ports of Upper Canada and those of the United States, bordering on the lakes. The importations into all our ports of entry on the Northern lakes, for the year ending June 30, 1845, compared with the previous year, were very large, showing an increase of more than fifty per cont. The annexed table exhibit the amount of revenue collected for the two fiscal years, ending June 30, 1846, at each of our lake ports of entry:

Commerce of the Lexes—Revenue Collected for the two fiscal years, ending June 30, 1846, at each of our lake ports of entry:

Commerce of the Lexes—Revenue Collected for the two fiscal years, ending June 30, 1846, at each of our lake ports of entry:

Mr. H. C. TIMM will preside.
